TARIFF BILL SCHEDULES SHOULD BE REVISED

Cummins Says Demand of the People for Downward Cut Can be Met by His Plan

HE PROPOSES SCHEDULE BY SCHEDULE REVISION

His Opponents Declare Project Is Both Revolutionary and Drastic

WASHINGTON, Dec. 13.—Defending a resolution he offered yesterday for the modification of the rules, to permit tariff revision by schedule, from charges made by his opponents that it is "revolutionary and drastic," Senator Cummins of Iowa spoke in favor of the plan in the Senate today.

"It is not my purpose to precipitate a tariff war," he said. "I have no desire to discuss the merits of the Payne tariff law. I believe, however, that some of its provisions are indefensible. There is a prevailing sentiment in the country that some of the schedules are too high. Under present business conditions it is impossible to amend the tariff law, therefore I favor the plan I have suggested. It will satisfy the demands of the people."

Senator Aldrich replied, declaring that he did not believe the plan to be efficacious.

BURKE TO ASK FRIENDS TO GIVE HIM CHARACTER

SANTA ROSA, Dec. 13.—Luetta Smith was again the center of interest in the trial of Dr. Willard Burke today. It had been announced that the woman would be recalled to the witness stand for cross examination and the usual morning crowd gathered.

Important witnesses for the prosecution are scheduled to follow Miss Smith. Abbie I. Smith, the former head nurse in Dr. Burke's sanitarium, and Sadie Dixon, a contributor to Dr. Burke's magazine, "Health," are among the witnesses who have not figured in the case before.

The defense announced today that it plans to call prominent men from every section of California to testify as to Dr. Burke's character.

CONSERVATIVES MAKE SMALL GAIN IN ENGLAND

LONDON, Dec. 13.—A gain of four constituencies had been made by the conservatives when a tabulation of election results up to date was made this evening.

The standing is: Conservatives, 240; Liberal and Laborites, 229; Nationalists, 59; O'Brienites, 8. The constituencies where elections have not been held are 154.

CHICAGO, Dec. 13.—The cold wave beginning yesterday is continuing. The mercury hovers at zero. There is much suffering in the poor districts, especially among the striking garment makers. Many are reported as on the verge of starvation and as being without means for the purchasing of fuel.

The cold weather is general throughout the Mississippi Valley and Canada.

ELKINS STARVES THOUGH WEALTHY

Unable to Assimilate Food His Blood Is Impoverished—Family Alarmed

WASHINGTON, Dec. 13.—Although surrounded by wealth and luxury, Senator Elkins of West Virginia is starving to death, because he is unable to assimilate his food, according to a report current here.

The story is spreading that despite the efforts of the Elkins family to suppress the result of the senator's inability to digest food, the blood is impoverished. None are permitted to see the senator. Although the family declares there is no cause for alarm, the impression is growing that he is a very sick man.

NOMINATIONS ARE REPORTED

D. H. Thomas, G. A. Edgar and W. F. Lutz, the nominating committee of the Chamber of Commerce, have turned over to Secretary J. A. Willson a list of eighteen nominees. From that list nine are to be elected directors of the organization. The election is to be held on Jan. 10.

The following is the list of nominees:

Dr. G. H. Dobson, A. C. Black, A. E. Bird, H. C. Head, M. A. Yarnell, T. D. Knight, W. H. Thomas, J. S. Rice, J. R. Paine, Mac O. Robbins, L. L. Shaw, R. R. Smith, A. C. Tiede, L. A. West, A. V. Merigold, G. W. Minter, L. B. Valla and C. G. Twist. Black, Bird, Head and Yarnell are members of the present board of directors. Dr. Dobson is an ex-president of the Chamber of Commerce.

SUGAR TRUST OFFICIALS HIT

Supreme Court Denies Immunity to Conspirators—Decision Affects All Trusts

WASHINGTON, Dec. 13.—By unanimous decision the Supreme court decided yesterday that conspiracy is a continuing offense and the statute of limitations therefore does not shield the Sugar Trust conspirators from trial by jury for their offenses against the Sherman anti-trust law.

It is one of the most important decisions touching on the relations of individual trust magnates toward the law that has ever been rendered by the court of last resort.

Not only does it force John E. Parsons and all the other directors and officials of the Sugar Trust indicted for conspiring in restraint of trade to close the Philadelphia Sugar Refining Company of Philadelphia, but it establishes a precedent whereby the personal guilt of all trust officials may be tried out before a jury without the intervention of the statute of limitations to save them from past offenses.

SUPREME COURT ALSO HITS STANDARD OIL

WASHINGTON, Dec. 13.—The Standard Oil Company of New York must pay the \$20,000 fine imposed upon it by the District Court for the Western District of New York for acceptance of alleged concessions in the transportation of petroleum, as a result of the refusal today of the Supreme Court of the United States to review the case.

DIAZ BREAKS DOWN UNDER BURDEN OF CARES

Physically Weakened by Trials of Election and Worry Over Revolution

MAY RECALL REYES TO COACH FOR PRESIDENCY

Believed He May Already Have Done So—Battle Rages at Pedernalis

MEXICO CITY, Dec. 13.—President Diaz, according to credited reports is on the verge of a breakdown. The strenuous times of the recent elections and the anxiety subsequent to the insurrection throughout the country, has shattered his health. The slightest exercise exhausts him.

The report that President Diaz has recalled General Bernardo Reyes from his practical exile abroad to groom him for the Mexican presidency, is partially confirmed. Diaz is reported to have admitted this to a member of the Mexican legation in Washington.

BELIEF OF REYES' RECALL CURRENT AT WASHINGTON

WASHINGTON, Dec. 13.—Attaches of the Mexican legation here admit having heard the report that General Reyes is to be recalled and made a close associate of President Diaz. The general belief in diplomatic circles is that President Diaz now realizes the necessity of having a man in high power who is close to the people.

It was because of Gen. Reyes' popularity and his announcement of his intention to become a candidate for the vice presidency that caused Diaz to send him abroad to study military systems and remain away until his recall. It is predicted here that his recall will be issued within a week, if it has not already been secretly made.

BATTLE IS GOING ON AT PEDERNALIS

EL PASO, Dec. 13.—The report of a battle fought last Sunday between the Federal troops and the rebels, near Pedernalis, was partially confirmed today. The fighting resulted in a heavy loss of life.

Later messages indicate that the fighting is still going on, which side having the advantage not being stated. Trains northward on the Mexico & Northwestern and other roads are filled with refugees, women and children.

PASTOR MENAGED THROUGH MAILS

Dr. Leonard of Seattle Denounced Mayor and Police Chief for Reign of Vice

SEATTLE, Dec. 13.—The postal authorities are searching for the persons who addressed an anonymous letter to Dr. Adna Wright Leonard, the pastor of the First Methodist church, who last Sunday preached a sermon attacking the administration of Mayor Gill, and Chief of Police Wapenstein, blaming them for the existing conditions of vice in Seattle. The letter said:

"Your church will be blown up and you with it if you don't stop your abuse of Gill and Wapenstein."

Secret service operatives are assisting the postal officers in ferreting out the writers of the letter.

VAST SUM FOR PENSION BILL

Appropriation of Millions Will be Attacked in Many Quarters

WASHINGTON, Dec. 13.—A pension bill carrying an appropriation of \$153,668,000 is being considered in the house today. The report accompanying the bill asserts that congress has already disbursed four billions for pensions.

It is expected the bill would be attacked in many quarters and the reduction in its total demanded.

AVIATION WEEK TO BE CHRISTMAS WEEK

Dates for Flights by Famous Men Are Dec. 24 to 31 and Jan. 1 and 3

LOS ANGELES, Dec. 13.—The great aviation meet to be given Christmas week is expected to be the finest the world has ever seen, and the aviators are confident that all existing records will be broken and that new feats will be accomplished.

Dominguez field, where the meet is to be held, is situated one-half mile south of the site used last year. It is on a high bluff, but presents a level table land with the whole enclosure safe for landing places. This is a big factor in aeroplane flight and the aviators are willing to dare most anything provided they make a safe landing.

The aviation committee has definitely settled on Dec. 24 to 31 inclusive, and January 1 and 3 as the dates for the meet. Monday, Jan. 2, has been set apart in favor of the Pasadena Tournament of Roses and no flights will be made that day with a possible exception of a cross-country from the grounds to Tournament Park.

WEATHER FORECAST

The charred body was found when the ruins cooled. Several children are seriously ill from the effect of the smoke.

GOV. GILLETT ASKS EARLY DECISION ON FAIR

Issues Statement in Capital Giving Legitimate Reasons For Asking Action

'FRISCO WOULD SEND HER AGENTS ABROAD AT ONCE

State Legislatures Would be Visited to Enlist States in Exposition

WASHINGTON, Dec. 13.—Governor Gillett of California, who is here with the Panama Canal Exposition boosters, today issued a statement of the position of his committee in demanding immediate congressional action on the resolution selecting the site of the exposition.

"California wants the matter settled before the holidays," he said. "We want to start agents to Europe to advertise the fair. We want to appear at different state legislatures to plan provisions to have the states represented at the fair."

The Californians are surprising Washingtonians by their activity. The impression is growing that the controversy of the site will be settled soon.

NEW ORLEANS WOULD PREFER FURTHER DELAY

WASHINGTON, Dec. 13.—Content that they have pledged sufficient votes to assure the Panama-Pacific exposition for San Francisco, members of the California boosters delegation today centered their efforts to secure the earliest possible action in Congress.

They hope for an agreement whereby the House will vote Thursday or Friday on the bill fixing the fair site. It is believed New Orleans will fight for a delay.

BELIEVED HATTIE LE BLANC WILL BE ACQUITTED BY JURY

CAMBRIDGE, Mass., Dec. 13.—Acquittal was freely predicted when the attorneys for Hattie Le Blanc, aged seventeen, charged with the murder of Clarence Glover, completed their closing arguments in the girl's trial today.

The arguments for the prosecution finished early today. It is believed the case will go to the jury tonight or tomorrow. Throughout the pleading of her case the girl was unperturbed.

OXFORD WINS RUGBY GAME

LONDON, Dec. 13.—Oxford defeated Cambridge today in the annual Rugby match, by a score of 23 to 18.

HEAVY QUAKE RECORDED

MISSISSIPPI TOUCHES ITS LOWEST WATER MARK

ST. LOUIS, Dec. 13.—The Mississippi river here yesterday was .4 feet below the low water mark of 1863, which is now used by the government as the lowest point on the river gauge. The weather bureau expects the river to continue to fall.

But once before, in January, 1900, when the gauge was minus 2.6 feet, has the river been so low. Ice forming on sand bars above the city is holding the water back.

RAILROADS FREE HAND ON CHARGES

Commerce Commission Decides Railways Can Charge As They Please

WASHINGTON, Dec. 13.—The railroads have a right to impose demurrage charges for private cars as they see fit, according to a decision given by the Interstate Commerce Commission in a case brought by Procter & Gamble, the Cincinnati soap manufacturers, against the Cincinnati, Hamilton & Dayton railway.

The Commission held that the railway is not forced to handle private cars, and therefore may impose any conditions they wish when they handle them for their owners.

JUDGMENT IS NOW SIGNED

Name of Gary, Who Was Shot in Attorney's Office, Appears in Court Record Again

Though Judge West decided the case on Dec. 2, 1909, the attorneys in McCulley against Gary have not now presented the judgment for signing. The judgment, in favor of the plaintiff, was filed today with the county clerk.

H. C. McCulley and his wife sued C. N. Gary and B. H. Lovelace to rescind a deed to property given under misrepresentation, to the defendants, by the plaintiffs in exchange for Los Angeles property. The judgment signed today restores the title to the plaintiffs.

Gary's name is familiar here. About eighteen months ago he was shot in Attorney Forgy's office by Reinart, who was convinced that Gary had manipulated a deed and mortgage in such a manner as to defraud Reinart. Reinart was tried for attempted murder, and was acquitted.

FILES ANSWER FOR FACTORY

Attorney for Sugar Company Denies Allegations in Frank Monaghan's Complaint

Attorney H. C. Head for the Southern California Sugar Co. today filed an answer for that corporation to the amended complaint of Frank Monaghan in his suit against the Case, Hinze Co. and the sugar company. Monaghan seeks to compel the builder, the Case, Hinze Co., to bring the factory to a capacity of 600 tons daily, which capacity the plaintiff alleges the factory cannot maintain.

The answer filed by the sugar company denies, allegation by allegation, everything in the plaintiff's complaint.

Finley, who will retire from the district attorney's office with the outgoing district attorney, will have his law office in the Orange County Title Co. building, with his brother, Col. S. H. BOY SCOUTS MOVEMENT IS TO BE PROBED

New York Grand Jury Begins Investigation on Demand of W. R. Hearst

SUBSCRIPTIONS SAID TO BE ILLEGALLY RAISED

Witnesses Testify That Solicitors for Funds Used Coercion

NEW YORK, Dec. 13.—A grand jury today began the investigation of the American Boy Scouts movement, demanded by William Randolph Hearst, who resigned from the presidency of the organization, after charging that its solicitors had used "illegal means" to raise money.

Justice Gerard testified before the grand jury that as a result of a solicitor's statement that Hearst had requested him to give funds, he had made a donation.

Walter J. Kingsley, representing George Cohan, said the solicitor had told Cohan that unless he contributed \$5000 the Hearst papers would attack him.

DEATH PREFERRED TO INHUMANITY OF RUSSIAN PRISONS

ST. PETERSBURG, Dec. 13.—Six prisoners of the government prison at Searantul have suicided rather than submit to alleged inhuman treatment, according to official announcement by prison officials today. Three opened the arteries in their wrists and took morphine.

M. Sasanoff, the assassin of Minister of the Interior Van Plehve, was one of the suicides.

Rumors that Sasanoff died of the result of inhuman treatment of the gaolers is rumored as responsible for the official announcement. A plot to break jail was discovered by the guards and resulted in the capital punishment of two ringleaders and strict disciplining of the others.

EMMA GOLDMAN CABLES PROTEST TO JAP PREMIER

NEW YORK, Dec. 13.—At a mass meeting today Emma Goldman, after addressing a throng on the action of Japan in sentencing Dr. Kotoku and his wife, and twenty-five companions, to death for an alleged plot against the Emperor, addressed a cablegram to Premier Katsura demanding leniency. Has nothing new to offer the Christmas buyers, but we have lots of things that will do more good than all the "Jimkraks" that are usually bought on such occasions. ELLERY ADVISES CARE SPENDING \$18,000,000

Mapping of Routes Should be
Made on Reliable
Data

SACRAMENTO, Dec. 13.—State Engineer Nathaniel Ellery has issued a statement advising caution in the expenditure of the proposed \$18,000,000 bonds for state highways.

"That it is impracticable at this time to say that any one route is better than another for the construction of state highways under the \$18,000,000 Highway Act," is the opinion of State Engineer Ellery.

"The general plan of the Highway Act is to provide two great main highways throughout the state, one to run through the Sacramento and San Joaquin valleys, the other along the coast, connecting the different county seats.

"Undoubtedly the highway down the San Joaquin valley will take in the biggest county seats, the act itself contemplating tying up the other county seats later with these lines.

A Woman's Back

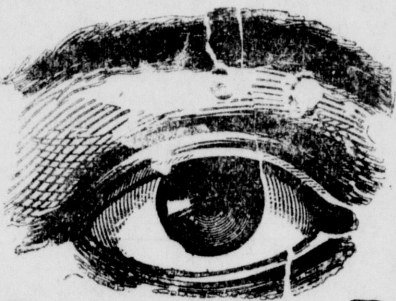

Has many aches and pains caused by weakness and falling, or other displacement of the pelvic organs. Other symptoms of female weakness are frequent headache, dizziness, imaginary specks or dark spots floating before the eyes, gnawing sensation in stomach, dragging or bearing down in lower abdominal or pelvic region, disagreeable drains from pelvic organs, faint spells with general weakness.

If any considerable number of the above symptoms are present there is no remedy that will give quicker relief or a more permanent cure than Dr. Pierce's Favorite Prescription. It has a record of over forty years of cures. It is the most potent, invigorating tonic and strengthening remedy known in medical science. It is made of the glyceric extracts of native medicinal roots found in our forests and contains not a drop of alcohol or harmful, or habit-forming drugs. Its ingredients are all printed on the bottle-wrapper and attested under oath as correct.

Every ingredient entering into "Favorite Prescription" has the written endorsement of the most eminent medical writers of all the several schools of practice—more valuable than any amount of non-professional testimonials—though the latter are not lacking, having been contributed voluntarily by grateful patients in numbers to exceed the endorsements given to any other medicine extant for the cure of woman's ills.

You cannot afford to accept any medicine of unknown composition as a substitute for this well proven remedy or known composition, even though the dealer may make a little more profit thereby. Your interest in regaining health is paramount to any selfish interest of his and it is an insult to your intelligence for him to try to palm off upon you a substitute. You know what you want and it is his business to supply the article called for.

Dr. Pierce's Pleasant Pellets are the original "Little Liver Pills" first put out by old Dr. Pierce over forty years ago, much imitated but never equaled. Little sugar-coated granules—easy to take as candy.

John Doerr

Phone, Black 2351.

Where these routes will be established I don't believe anybody knows at this time.

"But before any routes are established the first thing to do is to get a line on every available bit of data, give the matter considerable thought and base final decision on the routes that can give the best possible service to the public.

"We do not want any haphazard road building. The roads to be built under the highway act will be a part of a great highway system. They must be built not with the idea of giving favor to any particular locality, but with the idea that they are a part of a great state system. The relation of each road built to the great system must always be the uppermost consideration.

"Much of the laying out of the proposed roads under the act is left to the State Department of Engineering. Should I have to do with the work I will be positive to get all the data I can to work on so that I will make no mistake in mapping out the roads. I will go at the work much as a railroad company goes at the laying out of its roads. Surveys will have to be made, cost of construction and maintenance taken into consideration; pros and cons of the desirability and efficiency of the proposed routes taken into consideration. When these things have been done, as I said before, the ultimate selection must be made with a view of giving the best possible service to all the people of the state. So far, no serious consideration has been given to the collection of data and figures, and it is on this account that I believe it impracticable to say at this time, that any one route can be better than another. A proposed roadway that might appear the best on the face of it, might upon investigation be found to be the very worst one that could be chosen. Since it is intended to make the state roads the finest to be found anywhere and something more than the mere highways as have yet been constructed by the counties in the past, too much care cannot be exercised in handling the work."

The First English Lottery.

The first recorded lottery in England was drawn in London in 1569, the proceeds being devoted to public purposes. Four hundred thousand lots were drawn for prizes of cash and silver plate, and for four months little else was thought or talked of. The delight of the winners and the despair of the unfortunate seemed equally exaggerated. An epidemic of lotteries followed, there being no laws upon the subject, and soon there were lottery tailors, lottery tea merchants, lottery barbers—who with each shave at threepence gave a ticket that might draw a ten pound prize—lottery shoeblacks, lottery eating houses where the sixpence a plate of meat and the chance of drawing 60 guineas were given, and so on down to a sausage stall in a narrow alley, where it was announced that he who bought a farthing's worth of sausage might obtain a capital sum of 5 shillings.—London Mail.

Genius the Fruit of Hard Work.

The published production of genius is like the personation of an actor on the stage. We see it and judge of it as it is presented, without thinking or caring by what means he has arrived at his superiority. Research, reflection, study, are not taken into account. It is the effect of his work, not the work, that we consider. Quite likely we explain his impressiveness, his influence upon us, his naturalness, as we choose to style it, by pronouncing him a genius, just as we explain discoveries in science, accomplishments in art, triumphs in literature. They are what they are because they have sprung from genius. The measureless work which has aided, shaped, ripened, expressed the genius is not remembered, nor is it generally suspected.—Junius Henri Browne.

Wet Indeed!

One rainy evening Nora, the greenhorn, was sent to the corner grocery to procure some article necessary to the preparation of dinner. When she returned her mistress expressed regret that she should have been obliged to send her out on such a bad night.

"You must be awfully wet, I'm afraid, Nora."

"Wet is it?" was the response. "Sure me stockings is as wet as if I was in me bare feet!"—New York Press.

HOW CALIFORNIA GROWS

The monthly bulletin published by the California Development Board under date of November 30, contains the following interesting facts:

This bulletin is based on special reports by reliable authorities in various counties covering almost every section of the state.

The season's work has been very satisfactory generally, both to the farmer and fruit grower, and nearly every line of industry has shown substantial progress.

There is a general financial and business activity that is, as it were, statewide and not confined to any particular locality. Building activities, both public and private, are general.

Railroad extension and improvement is going on with vigor.

Oil and mining development show promising activity.

Deciduous fruit shipments are less than last year, but good prices have made returns remunerative. Citrus fruit shipments show an increase so far of nearly 40 per cent over last year at this date.

Most localities report an increased acreage of wheat and barley for next season.

The influx of homeseekers continues. Land sales and subdivisions are widespread.

The adaptability of California soil for cotton is attracting attention of Texas and Louisiana growers and a number are selling their holdings and coming to the coast.

One thousand and twenty-one new registrations of motor vehicles were reported by the secretary of state for the month of October.

The bank clearings as reported to the California Development Board from seven of the clearing house cities show an increase for November of 8 per cent over November, 1909.

The following shows the bank clearings and building permits from October 29 to November 28, inclusive:

ORANGE RURAL ROUTE CARRIERS HAVE TO WAIT

Orange News: The change in the Santa Fe train schedule, which took effect Sunday, December 11th, necessitated a change in the delivery of the rural mail routes out of Orange. The rural carriers now leave at 10:30 a. m., instead of 9 a. m., as formerly, being obliged to await the arrival of the morning papers from the city. The city dailies coming by mail now reach here at 10 a. m.

The new order makes it unpleasant for the rural carriers as well as for patrons near the end of the routes, whose mail is delayed accordingly. It is hoped that a change will be effected whereby the papers will come via the Pacific Electric line and so enable the carriers to go out upon their routes at an earlier hour.

He Had a Cinch
Dr. J. M. Buckley, the well known editor and divine, addressing a New York City Sunday school, told of meeting a ragged, hungry looking little girl in the street on a wintry day, and when he questioned her she recited a pitiful tale of a sick mother and younger brothers and sisters without food. After giving her a silver dollar the good doctor followed to see what she would do with the money.

"Now, children, what do you suppose was the first thing she bought with that dollar?" said Dr. Buckley. "Hands up."

Up went the hands, and one child after another ventured a guess, but none proved correct. Finally a little boy whose upraised hand alone remained was asked for his answer to the question.

"A basket," he sang out. "Correct," said the doctor. "There's a boy who thinks. Now, son, come up here on the platform and tell us why you think it was a basket."

The boy hesitated, and Dr. Buckley took from his pocket a silver quarter. "I'll give you this," he said, "if you tell us what makes you think the little girl bought a basket first."

"Be-be-cause," stammered the youngster, at last moved by the sight of the money, "I was in Hoboken last Sunday and heard you tell the story there."—Harper's Magazine.

TIGHT HATS.

They Impede Circulation in the Scalp and Invite Baldness.

Ingenious men are continually contriving new kinds of shoes, new suspenders and hundreds of different kinds of braces, but so far, says the Therapeutic Gazette, no one has taken up the idea of making a hat which will hold on the head and not blow off and at the same time not bind the head all around like a constricting band.

Some men go without hats at times with the idea that the hair is improved by ventilation and sunshine. Undoubtedly this does improve it, but the prime secret is not in not wearing the hat at all. The ventilated hat will not prevent baldness if this same hat be worn tightly around the head. If a string be tied over so lightly around the finger the effect upon the circulation may be easily marked in the end of that finger. A tight hat will affect the circulation of the scalp in the same way.

Hats which are easily blown off should never be worn, as they will not stay on unless jammed so tightly upon the head as to impede circulation. All stiff, rigid hats should be very light, and one should select a size larger than the head measurement and correct the over size by inserting felt strips under the sweat band, thus giving a cushion-like effect and preventing the constriction at that portion of the scalp.

FIRST POST HOUSES.

Established by Cyrus, the Founder of the Persian Empire.

The first posts are said to have originated in the regular couriers established by Cyrus the Great about 550 B. C., who erected post houses throughout the kingdom of Persia. Augustus was the first to introduce this institution among the Romans, 31 B. C., and he was imitated by Charlemagne about 800 A. D. Louis XI. was the first sovereign to establish post houses in France, owing to his eagerness for news, and they were also the first institution of this nature in Europe. This was in 1470, or about 2,000 years after they were started in Persia.

In England in the reign of Edward IV. (1481) riders on post horses went stages of the distance of twenty miles from each other in order to procure the king the earliest intelligence of the events that passed in the course of the war that had arisen with the Scots. A proclamation was issued by Charles I. in 1631 that, "whereas to this time there hath been no certain intercourse between the kingdoms of England and Scotland, the king now commands his postmaster of England for foreign parts to settle a running post or two between Edinburgh and London to go thither and come back again in six days."

The Active Sloth Bear.

"The sloth bear appears to be the most active of all the bears in the zoo. Whoever misnamed the animal ought to bestow a more appropriate title," said a woman visitor who sat on a bench in front of the bear dens.

"A more befitting designation would be 'Ursus pugilisticus' or something like that, for he is certainly the most pugacious of all the bruin specimens here. And he gets away with it, too, although he weighs only 250 pounds. I saw him knock out the hairy eared bear in a fierce fight over a piece of meat, and he gets the better of the great Yezo bear of about 1,000 pounds in the adjoining inclosure. They fight through the bars. You can hear the snapping of the big bear's jaws as he fails to catch his opponent. But the nervous sloth bear is as quick as a cat with his long claws and gets in a dig on the other one's muzzle that makes him snort with pain."—New York Sun.

Salt and the Romans.

Spilling of salt is a superstition still current among us. It is derived from the ancient Romans, who used salt in their sacrifices and regarded it as sacred to Penates. To spill it carelessly was to incur the displeasure of these household divinities. After accidentally spilling salt the ancient Roman was wont to throw some over the left shoulder—the shoulder of ill omen—thereby hoping to call away from his neighbor the wrath of the Deity and turn it upon himself.

Elephants' Love For Finery.

Strange as it may seem, the elephant is passionately fond of finery and delights to see himself decked out with gorgeous trappings. The native princes of India are very particular in choosing their state elephants and will give fabulous sums for an animal that exactly meets the somewhat fanciful standards they have erected. For these they have made cloths of silk so heavily embroidered with gold that two men are hardly able to lift them. —Pearson's Weekly.

Logical.

"Mother," asked little Ethel, "now that you're in mourning for Cousin Adelaide, will you wear black night-dresses too?"

"What an absurd question, child!" "Oh, I only thought you might be as sorry at night as you were during the day," ventured Ethel.—Harper's Bazar.

Society**Baraca Entertainment**

An artistic treat is in store for the appreciative public on Wednesday evening, Dec. 14, at Spurgeon's Hall, when Mr. Gustlin, Miss Modie and Mr. Murkett will render a program. The few appearances of Mr. Gustlin since his return from Europe prove that his study under the old world masters has not been in vain. Miss Modie, the whistler, is highly recommended by the Southern California press, and Mr. Murkett is too well known to Santa Ana audiences

to require commendation. The entertainment is being given under the auspices of the Baraca class of the First Methodist church.

Baraca Class Officers

The First Methodist Baraca class met last night with Mr. and Mrs. R. M. Brinckerhoff at their West Fourth street apartments, with about twenty present. After the election of officers for the ensuing half year, the rest of the evening was spent informally in social games and conversation.

The following officers were elected after spirited balloting: President, Claude Goddard; vice president, W. R. Howell; secretary, Irvin Great-house; treasurer, Raymond McTaggart; reporter, John Ball; sergeant-at-arms, Lucian Cole; chorister and Glee Club leader, W. F. Coffman; athletic director, Russel Coleman.

Plans were laid for increasing the athletic activities of the class in the near future. Before adjournment delicious refreshments were served by the hostess.

The Garnetts' Birthday Week

Three of the members of the Garnett household having birthdays this

week, a few friends joined them last evening to extend good wishes.

Monday being the birthday of Dr. Garnett, and also the first one of the eventful week, the company decided to call on that date. A most pleasant time was spent with music and conversation. Light refreshments were served and three pretty birthday cakes adorned with candles gave opportunity for the expressing of good wishes to the honorees.

When departing, the invaders promised to return on Dec. 12, 1911 and again celebrate the birthdays of Dr. and Mrs. Garnett and Carleton.

Brotherhood Mask Ball

The Fraternal Brotherhood is expecting to entertain the public with a jolly masquerade ball at their hall on next Friday night. Mitchell's Orchestra has been engaged for the occasion.

Woman's League

The regular meeting of the Woman's League was held yesterday afternoon at the City Hall with a fair attendance. The interest of the members at present is centered principally on getting new members, as the membership fee will be raised from \$52 to \$100 after Feb. 1, 1911. This fee can be paid by getting subscriptions to any standard magazine or periodical.

Three new members were added to the local chapter at yesterday's meeting. The members are very much interested in the correspondence courses which they are taking. One member spoke of a course in Household Economics that her daughter is taking as being unusually good. This course would cost \$48 ordinarily, but is free to League members and their minor children.

Mr. Pyatt, an honorary member of the Pasadena League, was present and spoke interestingly of the work of that city.

The next meeting of the Santa Ana Chapter will be held Jan. 9, 1911.

Music Section Program

The Ebells Music Section met yesterday at the home of Miss Medlock and enjoyed the following program:

Paper—Raff and Johanne Strauss Senior and Junior—Miss McFadden.

Piano Solo—Transcription from Strauss Waltz (Edward Schutt) Miss Bailey.

Vocal Solo—Life is So Gay (Gumbart) Mrs. Phillips.

Vocal Duet—Absent (Lassen) Mrs. Fyfe and Mrs. Rafferty.

Mission Meeting

A parlor meeting will be held tomorrow afternoon at 2:30, of the Woman's Foreign Missionary Society of the First Methodist church, at the residence of Mrs. J. L. Moore, 310 West Second street. The second series of the study of Western Women in Eastern Lands, under the leadership of Miss Margaret Allen, will be an interesting feature of the meeting. All members and those interested in the cause are urged to be present. Ladies are invited to take their Christmas work to the meeting.

A Male Man's Party

E. D. Waffle was host at a joyous birthday party last night at the spacious Waffle home, where decorations of smilax and scarlet geraniums told of the Christmas season approaching. At the birthday dinner party were Christmas place cards, and a big birthday cake on which shone

Following the feast, the men, for this was strictly a masculine party, adjourned to the library, where they told stories and smoked as they talked. It was agreed before they parted that each of the guests present would give a similar party as their own birthdays rolled around.

The invitations to Mr. Waffle's "male man party," as it was termed, were in rhyme, and the responses were similarly poetic. The men entertained by Mr. Waffle were Messrs. J. D. Parsons, John Avas, George C. McPhee, Geo. S. Smith and A. R. Rowley.

Guests at Fraternity Supper

A number of Santa Anans were guests last night at an elaborate dinner given in the Shakespeare Club House at Pasadena by the O.M.A. Fraternity. Those enjoying the pleasant event, with probably twenty-five or thirty others, were Miss Edith Tidball, James and Will Smart, Benton Blee, Bruce Dill and Ray Petty. While the latter does not at present reside here, he was at one time a resident of Santa Ana, and was secretary of the Young Men's Christian Club in its flourishing days.

All of the Santa Anans mentioned are members of the Alpha Sorority of Occidental College.

YOUR GIFT CHRISTMAS

What will it be? Money? Yes, money is a most acceptable gift. But a better way to give money, is to give it in the form of gift-edged, semi-annual, dividend paying investment. The Orange County Mutual Building & Loan Association of Santa Ana offers you that kind of security. During the past nine years it has paid 3 per cent semi-annually on each share of paid up stock, which is \$100.00 a share, par value. Under our installment stock plan you can apply for as many shares as you desire, paying for them monthly just as you feel able. The more you pay in each month the quicker your stock will mature. Under this plan you receive more than 9 per cent simple interest. You can withdraw any time and get your money back together with interest. You can get stock any time. There are no back dues, forfeits, or fines. Drop me a card and I will call at your convenience.

COURTHOUSE SEEKS RELIEF

County Officials Hope to Get Ordinance Preventing Soliciting in Their Offices

Courthouse officials are going to petition the Board of Supervisors for an ordinance that will worry book agents, insurance agents, land agents, charity seekers, lodge entertainment ticket sellers, and various and sundry other solicitors. Truly, if the ordinance as proposed is passed, all these agents may well sit up and take notice.

Los Angeles county has an ordinance prohibiting soliciting in the courthouse. Orange county officials have come to the conclusion that Orange county needs a similar ordinance, and needs it bad.

Officials state that they have no more kick than the ordinary man when they are tackled at home or on the street to take stock in something, subscribe to something, or give a good sized mite to something to help out somebody who voted right 'steven years ago, but they say they have a large kick coming when a persistent solicitor takes up time that belongs to the county.

Some of the soliciting at the courthouse is said to be nothing more nor less than a hold-up.

The officials are able to take care of themselves in that regard, but they feel that the taxpayer or other visitor who comes to an office is entitled to be waited upon immediately and not have to wait until the official has succumbed or frozen away the solicitor who has preceded the person there on official business.

THE SWINE OR THE FLOWER?
Ah me! I saw a huge and loathsome sty, wherein a drove of wallowing swine were barred,
Whose banquet shocked the nostril and the eye;
Then spoke a voice, "Behold the source of lard!"
I fled, and saw a field that seemed at first One glittering mass of roses pure and white,
With dewy buds 'mid dark green foliage nursed;
And, as I lingered o'er the lovely sight, The summer breeze, that cooled that Southern scene,
Whispered, "Behold the source of COTTOLINE!"

A CHINESE TITBIT.

Eggs That Have Been Preserved For a Century or More.

When Li Hung Chang made his tour of the world his commissariat carried with it a supply of Chinese preserved eggs for the venerable ambassador's special use. Some of these eggs were exhibited in New York while he was staying here, and a few experts had the temerity to sample them. "They were not so bad after all," was the verdict of one American connoisseur, "although by their looks you would think they would come under the ban of the pure food law."

The eggs were incased in clay and when unpacked looked like pieces of pumice stone. They are preserved in this way by the Chinese for a century or more, and Li Hung Chang admitted that the hen which laid the eggs for his morning meal might have been decapitated anywhere from a quarter to half a century before he was born. The process of keeping is very primitive, but as effective as it is simple. The eggs are first boiled hard, and then while they are hot they are wrapped in soft clay and packed away.

In this condition the Chinese claim they will keep forever and not lose their flavor or wholesomeness. Indeed, they consider that age improves the flavor. Li Hung Chang's commissariat brought the eggs for his personal use in bags packed in rice husks, but as the clay was hard there was not much danger of breaking them. When opened the "white" was found to be almost black and the yolks green. The flavor, however, was preserved. The Chinese chop these preserved boiled eggs and decorate most of their viands with them. They also enter largely into all their sauces.

Duck eggs are also preserved by the Chinese in a somewhat similar fashion. There is a considerable trade in duck eggs of the Peking and Muscovy breeds, and many Chinese in this country import them from China in the preserved condition. The duck eggs are boiled and preserved in a paste of charcoal instead of clay.—Harper's Weekly.

SEARCHLIGHTS.

A Special Pattern Must Be Used on the Suez Canal.

Every war vessel carries from one to twenty searchlights, and every vessel of any description whatever passing through the Suez canal has to carry one of a special pattern.

A searchlight consists essentially of an arc lamp of special form, a parabolic mirror and a case to hold the lot, the case being mounted so as to be capable of movement in two directions—viz. vertically and horizontally. The hood, as this case is called, is made of sheet steel about 3.32 inch thick. The turnable, trunnions, etc., are cast in gun metal. The arms which support the hood are of cast steel. The lamp box is formed as part of the hood. The mirror is carried on springs in the back cover, and at the front of the hood is a "front glass" mounted in a gun metal ring, and the dispersion lens when carried is hinged on in front of this. Training is carried out by means of a worm and worm wheel or by a rack and pinion. Slewing is effected by means of a pinion which gears into a crown wheel on the underside of the turntable, or else it is done directly by hand.

The Suez canal regulations require that the projector shall be capable of giving the light required under two different conditions—in the first case a broad, flat beam of light illuminating both banks and the canal uninterruptedly, this being used when no other ship is approaching; in the other case they require a beam having the same angle of divergence and consequently the same width as the first, but divided into two portions, with a dark interval between, thus giving light at both sides, but not directly in front, and so not interfering with the navigation of the approaching vessel.—J. M. Heslop in Cassier's Magazine.

A Fortune in Snuffboxes.

Count Nesselrode, the Russian statesman of the last century, was a famous collector of snuffboxes. He collected them as a diplomatist, receiving one or two for each treaty he signed, and when he had got \$100,000 worth of them turned them into cash and became a capitalist. His capital he invested so judiciously that his descendants are multimillionaires. The moral of Count Nesselrode's experience is that a snuffbox is not to be sneezed at.

Teaching the Teacher.

A village parish clerk who employed a grammarian to teach his daughter heard him with much surprise define the use of the articles "a," "an" and "the."
"You cannot place 'a' the singular article, before plural nouns. No one can say, 'A houses, a horses, a'—"
"Hold there!" said the parish clerk. "I must contradict you in that. Don't I at church every Sunday say 'Amen?'"

ALL STOMACH MISERY ENDS

Indigestion, Gas, Heartburn or Dyspepsia Go in Five Minutes

—If you had some Diapiesin handy and would take a little now your stomach distress or indigestion would vanish in five minutes and you would feel fine.

This harmless preparation will digest anything you eat and overcome a sour, out-of-order stomach before you realize it.

If your meals don't tempt you, or what little you do eat seems to fill you, or lays like a lump of lead in your stomach, or if you have heartburn, that is a sign of indigestion.

Ask your pharmacist for a 50-cent case of Pape's Diapiesin and take a little just as soon as you can. There will be no sour risings, no belching of undigested food mixed with acid, no stomach gas or heartburn, fullness or heavy feeling in the stomach, nausea, debilitating headaches, dizziness or intestinal griping. This will all go, and, besides, there will be no undigested food left over in the stomach to poison your breath with nauseous odors.

Pape's Diapiesin is certain cure for out-of-order stomachs, because it prevents fermentation and takes hold of your food and digests it just the same as if your stomach wasn't there.

Relief in five minutes from all stomach misery is at any drug store waiting for you.

These large 50-cent cases contain more than sufficient to thoroughly cure almost any case of dyspepsia, indigestion or any other stomach disturbance.

STAMPS ARE PUT ON SALE

Anti-Tuberculosis Seals, Cost-
ing One Cent Each, Provid-
ed for Holiday Mail

Dr. John Wehrly, secretary of the
Santa Ana Society for the Study and
Prevention of Tuberculosis, has placed
holiday stamps on sale at all the
book stores and drug stores and at
Wiesseman's in Santa Ana.

The design of the stamp has been
fortunately changed so as to elim-
inate all reference to sickness or

charity, and hence will become known
as the "California Stamp." It is
printed in green. Although they sell
at but one cent each, the receipts in
the state last year were sufficient to
conduct the business of the state so-
ciety, from its one-third, the other
two-thirds going to the local socie-
ties.

The most important thing in con-
nection with the use of these stamps
is the new postal regulation. Pasted
on the face of letters or packages, it
gave rise to many errors and the re-
jection of much mail matter, because
some persons supposed them to be
good for the payment of postage,
which they are positively not.

The Postoffice Department has ruled
that hereafter all such souvenir
stamps, if used on the outside, must
be stuck on the BACK of the letter
or parcel; if put on the front, the
matter will be unmailable.

The recommendation of the socie-
ty is that they be placed on the in-
side, attached to the top of the let-
ter or stuck to the inner wrapper of
the parcel; or, if used on the outside,
that they be used as a seal, where
the wrappers meet on the back. "Af-
ter all," says the committee, "the
best place for a greeting stamp is on
the inside, where it presents its
greeting every time the letter is re-
ferred to."

Our Washington Letter

WASHINGTON, Dec. 13.—The his-
toric names that have been associat-
ed with the beef industry in Chicago
for a couple of generations will be
called out in a criminal court in the
Windy City some day next January.
The month but not the day has been
fixed. Then will be placed under way
a giant struggle in which the best
resources of the government will be
used to settle the question whether
there is a beef packers' trust, and, if
so, whether any of the multimillion-
aires who control it can be made ac-
quainted with prison work and other
routine.

With unlimited cash at hand the
barons will have the brightest lights
in the law business in court to con-
vince the solemn judge and frowning
jury that there is no trust, or if
there is one, that the eminent de-
fendants have done nothing that
would justify their banishment to
Leavenworth.

A contest over technicalities will
mark the opening of the battle and
long and weary days may pass be-
fore the actual trial of the barons is
begun. Motions to quash and de-
murrers to indictments will be of-
fered and are likely to be subjects of
long consideration.

Indictments were returned against
the packers last summer after an in-
vestigation conducted by Assistant
Attorney General Kenyon of Wash-
ington, and United States District
Attorney Sims of Chicago. The best
men in the Bureau of Investigation
of the Department of Justice probed
the affairs of the alleged trust and
produced a mass of evidence that, in
the opinion of the highest law officers
of the government, justified criminal
prosecution. Kenyon and Sims will
conduct the case on behalf of the gov-
ernment. National interest will cen-
ter in the case for the reason that
the men on trial will be the biggest,
in wealth and influence, that have
been attacked in any trust hunt.

Several years ago a number of the
packers were indicted but they es-
caped trial by claiming and receiv-
ing an immunity bath. Their law-
yers argued that they had given full
information regarding their business
to James R. Garfield, who, as Com-
missioner of Corporations, made an
investigation of the "Big Four" in
the packing business, and that that
information could not be used in a
prosecution of the packers in court.
The claim was in accordance with
law and the charges against the ac-
cused men were dismissed.

and territory, have been chosen, and
it is probable that the banks will be
opened at the beginning of 1911,
much work remains to be done in
the development of the system, ac-
cording to one of the trustees.

A problem that is taxing the trust-
ees and the solution of which is
awaited with great interest by bank-
ers, concerns the deposit of postal
funds in banks. The law provides
that 65 per cent of the funds "shall
be deposited in solvent banks, wheth-
er organized under national or state
laws, being subject to national or
state supervision and examination." The
word "banks" includes savings
banks and trust companies.

The solvency of national banks will
probably be determined by the Com-
ptroller of the Currency, who has
charge of the national bank exam-
iners. The best method for ascer-
taining the condition of other banks
has not been determined. One plan
suggested provides for the co-opera-
tion of the comptroller or some other
governmental agency with the state
banking departments.

There are many bankers who are
anxious that the method for deter-
mining the question of solvency shall
be thorough and guarded to protect
impartially the interests of all banks.
Unless that is done they fear that
some future board of trustees may
possibly make the power to decide as
to solvency a basis for favoritism in
the distribution of postal bank funds.

A harbinger of Christmas has ap-
peared in the form of a warning by
the Postoffice Department to persons
inclined to attach ornamental stamps
to holiday presents mailed to foreign
countries. Gifts bearing such adorn-
ment may fail of delivery because of
prohibitive postal regulations in the
countries to which they are sent.

A statement issued by the Post-
office Department says that the fol-
lowing countries refuse to admit to
their mails articles bearing non-pos-
tage Christmas stamps or other adhe-
sive charity stamps or labels:
Guatemala, Uruguay, Portugal (if
they resemble regular postage
stamps.)

The following countries will admit
articles bearing such stamps, but
only when affixed to the reverse and

not to the address side:

British East Africa, Uganda, An-
tigua, Barbadoes, Bermuda, British
North Borneo, Cayman Islands, Cy-
prus, Gold Coast, Dominica, Falkland
Islands, Gambia, Gibraltar, British
Honduras, Jamaica, Mauritius and de-
pendencies, Montserrat, Nevis,
Southern Nigeria, Saint Christopher,
Saint Lucia, Saint Vincent, Sey-
chelles, Sierra Leone, British Soma-
land, Trinidad, Turks and Caicos
Islands, Virgin Islands, Germany,
Austria (provided they do not resem-
ble postage stamps), Great Britain,
Southern Rhodesia, Transvaal.

Articles liable to be refused admit-
tance to any of the foregoing coun-
tries on account of the fact that they
bear charity stamps will not be dis-
patched from this country, but will
be returned to the sender, if known.
If the sender is not known, such ar-
ticles will be sent to the dead letter
office.

To preclude delay in handling ar-
ticles bearing Christmas stamps to be
transmitted in the International
mails, the covers of such articles
should bear the full name and address
of the sender.

Remarkable Revival Meeting

One of the most remarkable meet-
ings in the series was held last night
at the Methodist Church, South, cor-
ner Broadway and Church streets.

The attendance last night was an
exception to the rule that "Monday
night is a bad night," the auditorium
being filled.

Earl Olin gave the message on "In
Christ, old things passed away, all
things become new." 2 Cor. 5:17; and
contrasted the life he used to lead as
a non-Christian to the life he now
had "In Christ."

The testimony meeting was excep-
tionally good last night, and there
were many surprises. One was that
of a young fellow who testified that
he was saved in Spokane, Washington,
a short time ago from the life of a pro-
fessional tramp. Another was that
of our city marshal to the transforma-
tion wrought in his life by the "gos-
pel of Christ."

A large number of young people
testified to the joy of the "surrender-
er life," many of whom have just re-
cently come out of a nominal Chris-

tian life into a life of real Christian
service.

The subject at this afternoon's meet-
ing at 3:30 will be "Personal Work."
The attendance was large yesterday
and the interest is increasing.

Elliott H. Barrett will give the
message tonight at 7:30, and young
people are especially urged to attend.

INDIGESTION

Relief in Five Minutes and Per-
manent Cure or Money
Back

—When the Rowley Drug Co. states
that they have a remedy that only
costs 50 cents and is guaranteed to
cure any man or woman who suffers
from food fermentation, or money
back, what are the poor stomach suf-
ferers in Santa Ana and vicinity go-
ing to do about it?

Food fermentation causes belching,
sour stomach, gas eructation, heart-
burn and that lump of lead feeling as
you probably know.

The name of this most remarkable
stomach prescription is MI-ONA. Most
people call them MI-ONA stomach
tablets because they know that there
is no remedy so good for indigestion
or stomach disorders. Here is one
opinion:

"I have been troubled with indiges-
tion for more than a year. I bought
one box of MI-ONA and it cured me.
Now I would not be without a box in
the house for \$5.00. It saves a lot of
doctor bills when you can be cured
for 50 cents."—Arthur Sederquest, 6
Nichols St., Wakefield, Mass.

MI-ONA stomach tablets cost 50
cents a box at the Rowley Drug Co.,
and druggists everywhere and money
back if they don't cure.

CONTINUE HIS OWN MANAGER

Superior Court Denies Mrs. Pittman's Petition for Son's Guardianship

Showed That He Was Erratic But Not Shown He Is An Incompetent

In the superior court yesterday afternoon Judge West denied the petition of Mrs. Caroline Pittman of Placentia to be appointed guardian of her son, Fred B. Tuffree. The denial of the petition followed a careful investigation by Judge West. Attorneys Head & Marks appeared for Mrs. Pittman and Attorney Montgomery for Tuffree, who resisted the attempt to have the management of his affairs taken out of his hands.

The witnesses examined were Mrs. Pittman, John W. Tuffree, W. T. Brown, C. E. McFadden, G. B. Key, P. S. Martinez, A. S. Bradford, George

Young, Charles Beach, Fred B. Tuffree and Victor Montgomery.

The petitioner's witnesses proved that Fred Tuffree is erratic and changeable, and at times highly nervous. It showed that he had used very poor business judgment. Mrs. Pittman stated that she had paid all his bills. She said that a short time ago he got in the habit of rising at various hours of the night and stamping around the house.

Other witnesses testified to deals that showed Tuffree was erratic in his judgment.

Questioning indicated that Tuffree's mind has been clear. His talk indicated that he knew what he was doing, though some of his acts were peculiar. Tuffree went on the stand and was questioned and cross-questioned, and stood the fire as well as any witness could be expected to stand it.

Attorney Head asked him if he remembered that two years ago he went to the county clerk's office and left \$2 with the clerk, saying that it was payment for a marriage license that he would get some day.

Tuffree replied that he remembered the instance well, that the money is still there and may be used for that purpose some time. "It will be there when I am ready for it," he said.

Judge West was convinced that it had not been shown that Tuffree is an incompetent person, and the petition for guardianship of his property was denied.

Tuffree has property worth \$30,000.

STRUCK POST IN RUNAWAY

Check of F. A. A. for \$3000 Insurance on W. M. Scott's Life is Received

Orange News: An exciting and, fortunately, harmless runaway occurred this afternoon when a large team belonging to A. Crawshaw broke away from its owner, while he was changing bits in their bridles at the Gunther harness shop, and whirled the large orange rack to which they were hitched, around half of the plaza and down South Glassell street at a high rate of speed. Nothing obstructing the way, the team ran as far as Palmyra avenue, where they struck a telegraph post while trying to turn the corner, and were thrown. A slight damage to the harness was the only result of the gallop.

The secretary of the F.A.A. received a check Saturday covering the insurance of the late W. M. Scott, whose death occurred Sunday, November 27. The amount was \$3000, made out to Mrs. Libby J. Hammond of Santa Ana, a sister of the deceased.

News has been received here of the death of Miss Mamie Cox at Newark, New Jersey, which occurred on Friday, December 2, after an illness of a month's duration.

Miss Cox, who spent her girlhood in Orange, and is widely known among the older residents, left here about seven years ago, accompanying her family to New Jersey. Her father, H. R. Cooper, remained here until last spring, when he disposed of his ranch and joined the family in the East. Her mother died there about two years ago.

The girls' basketball team of the Orange High School won the league game from Anaheim High, Saturday, on the Anaheim grounds in easy fashion. The final score stood 25 to 7.

Jess Crawshaw has purchased a half interest in the pipe yard of F. C. Baier and will in future be associated with him in the pipe-making and cement contracting business.

Give "Santy" a Tip For a Fur

One of the finest and handsomest presents you could make a woman or a young lady is a warm, cosy, stylish fur. Every woman has a secret desire that sometime she may own a fur, for besides its beauty, a fur gives so much comfort and warmth on a chilly morning or evening. It protects the neck just where the coat does not. Men can turn up their coat collars, but a woman would look queer if she did it; so she suffers in silence or tries to wrap up with a thin silk scarf. And a fur does not cost much when you investigate our prices. We can give you a handsome fur for six dollars, or less, or more, just according to your taste and pocketbook.

Let us show you some of our new muff sets. Some have the round muffs and one beautiful set at \$30 has the hat, satin lined, open muff, trimmed with heads and tails. They come in black and browns. We also have a big line of the flat furs in cape effects moderately priced at \$6.00 up. Come in and let us show you before Christmas.

COUNTY LINE ROAD BRIDGES

San Diego Supervisors let Contracts for Building of Structures, Total \$24,603

SAN DIEGO, Dec. 13.—Contracts for the construction of five bridges on the new coast highway route from Oceanside to the Orange county line have been awarded by the board of supervisors to Knight & Hyde. The contract prices for the various structures are as follows: Santa Margarita, \$7765; Los Flores, \$3352; San Onofre, \$6016; South San Mateo, \$531; San Mateo, \$6939, totaling \$24,603.

A petition was received yesterday from scores of residents of Oceanside and that vicinity asking the supervisors to resort to the use of concrete in building all bridges in the future, declaring that it would be

economy in the long run if such material were used.

The supervisors said that such an expense would not be justifiable at this time, but admitted that the concrete bridges will last a longer time. The bridges for which contracts were awarded are to be of a combination wood and steel construction.

DEBATE FOR FRIDAY NIGHT

High School Team to Meet Anaheim Speakers—Discuss Important Question

Once more the Santa Ana High School debating team is preparing for a battle royal on Friday evening. This time it is with their old enemy, Anaheim. It will be one of the best battles of words ever heard in the High School auditorium. The question for discussion is: "Resolved, that the 'standing committees in the House should be elected by the House.'" This is a live, up-to-date question, and should be of interest to all patriotic American citizens. The speakers for Santa Ana will be Loren Mead and Bertrand West, who are well known for their debating ability.

This debate is one of a series of extemporaneous debates, which are being promoted by District Attorney S. M. Davis, who has offered a handsome cup to the school which defeats the rest of the schools in the county three successive times. Santa Ana has already won the cup once. Next Friday evening it hopes to take one more step toward winning it again. The school feels that it is up to the people of Santa Ana to come out and support the debaters and the school.

THE OTHER WOMAN PRESENTS TRUTHS

The Other Woman, Frederick Arnold Kummer's play presented Friday night at the Grand by Blanche Walsh and an excellent supporting company, is the story of three lives in which illegal love and the marriage bond are involved in a problem that in some form or other, has existed since civilization.

Eleanor Gates, the "other woman," played magnificently by Blanche Walsh, loves a married man, James Harrington, who reciprocates ardently. Also devotedly attached to the man in the case is his wife, a weak, more or less pretty woman, redeemed only by her passionate love for her husband and a sublime conception of motherhood which had once blessed her.

Eleanor Gates is a woman of pure character who believes herself justified in loving Harrington, whose life like her own, seems empty. But she refuses to join her life with his until he has given his wife, whom she has never seen, a chance to free him. Should she refuse, after knowing the truth, Eleanor promises she will go away with him. From this point the movement of the play fairly rushes till it reaches its exciting climax,

where Eleanor sends Harrington back to his wife.

The play powerfully sets forth the struggle between the ardent love of two strong, honest, congenial natures, and the subtle strong-as-steel ties woven by marriage and parent-hood. In the end the latter triumphs, aided by the renunciation of the "other woman."

The play is of doubtful value to the immature minds of youth, because illegal love personified in Eleanor Gates is glorified by the splendor of the manner in which she sacrifices her own happiness in giving her lover back to the wife who needs him and to whom he is linked by the sacred

ties of nature. But to ripper minds it blazons deep some adoring truths. Out of these is that no woman can be shallow, pretty and out of sympathy with the ideals of her husband without losing his love. As for the man, he must realize that his very manhood is at stake in being true to the real meanings of marriage, patience, tenderness, loyalty, even though love flees, and that the common basis on which the two, man and woman, meet in the maintaining of a home, is the rearing of children.

The play was splendidly played, Blanche Walsh being of course the central figure as Eleanor Gates, "The Other Woman." "The Husband," James Harrington, was strongly presented by George W. Howard, and as "The Wife" Mrs. Harrington, Anne Benedict, was a close second to the leading woman. The frivolous friend, Mrs. Harriet Varnum, was realistically played by Nellie Butler and the minor parts were correctly presented. The stage settings were sumptuous.

TALK PAY FOR LOWER COURTS

Possible Law Providing Compensation for Township Juries May be Passed

At various times men who have been summoned to do duty as jurors in the local justice's court have been heard to say that they believed the state should make some provision for paying for the township jury service. The feeling seems to exist all over the state. Jurors in the superior court are paid, but the lower court carries no compensation.

Assemblyman Clyde Bishop says that the matter of proposing a state law to provide payment for jurors called in township courts had been talked of to him.

"I have often thought of the mat-

ter," said he, "and I cannot see but what compensation for jury service of that kind is just. I do not believe it right to take men from their business or work and compel them to serve on a jury without making some return to them. I believe a law should be passed providing compensation."

NOTICE OF STREET WORK
NOTICE IS HEREBY GIVEN, That the Board of Trustees of the City of Santa Ana, on the 12th day of October, 1910, did pass, approve and adopt a Resolution No. 517 of the City of Santa Ana, declaring its intention to improve a portion of West Fourth Street in said City requiring the re-paving by resurfacing with a two inch asphaltic wearing surface of the roadway of said West Fourth Street, between the West line of North Broadway and the West line of North Birch Street according to Specifications for said repaving by resurfacing and to order the following street work done, to-wit:

That the roadway of West Fourth Street between the West line of North Broadway and the West line of North Birch Street in said City, except along such portions of said West Fourth Street between said points as is required by any person or company to be kept in repair having railroad tracks thereon, be repaved by resurfacing with two inches of asphaltic wearing surface; that the old wearing surface shall be entirely removed and the foundation swept perfectly clean of dirt and all loose materials. That wherever the concrete foundation is impaired all injured parts shall be removed and the whole brought to the proper grade to conform to the balance of the Street, by filling in with hydraulic cement concrete composed of the following materials properly prepared and rammed or rolled into place, to-wit:

One part, by measure, Portland cement; one part, by measure, sand, and five parts, by measure, of screened gravel. Upon the old concrete prepared and brought to a sub-grade as above described, swept free from all rubbish there shall be constructed an asphaltic concrete sub-surface of sufficient thickness to bring the foundation to a line two inches below and parallel to the finished surface and composed of sand, clean gravel and asphaltic cement.

All said work shall be done according to Specifications, plans, profiles and cross-sections now on file in the office of the City Engineer of said City and according to the official grade of said West Fourth Street on file in the office of the City Engineer.

That Resolutions Nos. 476 and 501 of the City of Santa Ana for repaving by resurfacing between said points on said West Fourth Street are hereby repealed, and all proceedings or work under said Resolutions are rescinded and discontinued.

That the Santa Ana Daily Register is hereby designated as the daily newspaper printed, published and generally circulated in said City, in which the Resolution of Intention and Notice thereof by the Superintendent of Streets shall be published.

The Superintendent of Streets shall and he is hereby directed to post notices of the passage of this Resolution according to law and he shall cause a similar notice in substance to be published in said newspaper for six (6) days.

That the City Clerk is hereby directed to publish the Resolution of Intention for two (2) days and to post the Resolution for two (2) days, conspicuously, on or near the Chamber Door of said Board of Trustees.

Reference is hereby made to said Resolution No. 517 of the City of Santa Ana, dated, passed, adopted and approved on the 17th day of October, 1910, for further particulars.

The coming of this company is always heralded with delight by that portion of amusement going people who enjoy a first-class minstrel show.
